- 3.25 metre lanes with 1.25 metre paved shoulders

Financial and Resource Implications

Project Funding

Item	Excluding HST	Net HST
Approved Total Project Budget	\$2,260,220.13	\$2,300,000.00
Tender Award Amount	\$1,794,744.32	\$1,826,331.82
Construction Contingency (10%)	\$179,474.43	\$182,633.18
Total Tender Projected Costs		\$2,008,965.00

With tendering early in the year and the size of the project, the bids are extremely competitive demonstrating substantial savings from the projected estimates and budget.

The total project amount is under budget by \$291,035.00

The ten percent contingency is being applied to account for any possible fluctuations in the Asphalt Cement Index and any unexpected field issues.

It is expected that the surplus will help address any deficits generated from the capital construction program or alternatively placed in reserves pending no deficit.
