PRESENTATION TO THE

Grey County Council
Feb. 13, 2020
If you could make a difference in the life of a child – would you?
Unintentional injury is the leading cause of death & disability amongst school aged children.

Injury experts estimate that the majority (95%) of childhood injuries are "preventable".

We can make a difference
1,000’s of children from kindergarten to grade 6!
The impressionable years!

If you could make a difference in the life of a child – would you?

According to Statistics Canada: as of 2016, GREY COUNTY... had a population of **93,830** with approximately **7,500 being 4 to 11 Years Old.** This is the target age for children attending the safety programs at our Children’s Safety Village.

An investment of a meagre $2 per year for each child (4 to 11 years old) in Grey County is an investment in the future of Grey County – our children. The full amount would be used directly and exclusively for Programs- Instruction/Content.

If the Children’s Safety Village can make the difference in the life of just one child, we have been successful. Up to 7,500 children from communities throughout Grey County will have the opportunity to attend life-saving, hands-on, interactive programs annually.
The Life of a Child.... Priceless!

We look forward to working together to have this village in our community to ensure the safety of our children.
