

July 30, 2015

Mr. Kevin Eccles
Warden
Grey County
595 9th Avenue East
Owen Sound, ON N4K 3E3

Your Worship,

On behalf of everyone at Georgian College, I'd like to thank Grey County for its first payment in support of the county's \$2-million pledge toward our Marine Emergency Duties (MED) Training and Research Centre.

As the first organization to publicly declare its financial commitment to this project, you undoubtedly built momentum for others to contribute, culminating in last month's announcement that we are to receive funding from the federal and provincial governments. Since the need for this centre was identified following the closure of the Port Colborne site, Grey County has recognized the importance of this project for the economic health of the region and the sustainability of Georgian's Owen Sound Campus. We are so thankful for your advocacy, your support and your friendship.

I'm delighted to say that construction of the fire training facility is well underway and on schedule for an August completion. We also look forward to breaking ground soon on the MED Centre and hosting an event that celebrates this great addition to our community and the investors and donors who helped us achieve it. In the meantime, please find enclosed an official receipt for tax purposes.

Sincerely,

MaryLynn West-Moynes
President and CEO

c. Sharon Vokes, Acting CAO/Clerk

Corporation of the County of Grey
