

Report CCR-PCD-14-16

To: Chair McQueen and Members of the Planning and Community Development Committee
From: Sim Salata, Collections Manager
Meeting Date: August 11, 2016
Subject: **Deaccessioning artefacts outside Grey Roots' collecting scope**
Status: Recommendation adopted by Committee as presented per Resolution PCD96-16; Endorsed by County Council September 6, 2016 per Resolution CC111-16;

Recommendation(s)

WHEREAS Grey Roots staff has identified approximately 2, 308 artefacts to be disposed of from its artefact collection because they are duplicated in the collection; they are in poor condition, and/or they do not fit Grey Roots' Mission and are therefore of no or very little exhibit or research value;

NOW THEREFORE BE IT RESOLVED THAT the list of museum artefacts identified in Report CCR-PCD-14-16 be disposed of according to its Acquisition and Deaccessioning Policy which meets Ontario Museum Standards;

AND THAT any revenue from the disposition of these artefacts be transferred to Grey Roots' Artefact Reserve.

Background

This is the second of an anticipated three deaccessioning reports to come forward as a result of Grey Roots' 2008 to 2014 artefact inventory and rating project.

The museum has been collecting since it opened in 1955, when it was the Owen Sound - Grey County Museum, and since 2004, as Grey Roots Museum & Archives. In 1990, the Ministry of Tourism, Culture and Sport instituted a set of Museum Standards which included professional guidelines for collecting. Like many museums, between its start and 1990, museum staff collected many objects that simply were "old" that had little or no connection to their communities. Many have no stories to tell, as their histories were not recorded upon donation.

When an object is accepted into the collection it becomes an artefact, and as such, requires special care, utilizes valuable space, staff time, and budget resources. Deaccessioning formally removes these objects from the artefact collection, allowing Grey Roots to re-direct space, staff and monetary resources toward artefacts that have strong cultural connections to Grey County and are display-worthy. Used carefully, deaccessioning creates stronger collections and museums.

Of the 15,000 collection artefacts, staff has identified approximately 2,305 that are beyond Grey Roots' collecting scope. Approximately one third are in poor condition, are missing parts, or are remnants of objects and/or there exists better examples in the collection. Many of these objects were in poor condition when they were donated and some objects were stored in less than ideal conditions before Grey Roots was built, which lead to their deterioration.

Approximately one third are made up of personal objects such as eyeglasses, clothing and fragments of clothing, and mass-produced objects such as 20th century medical equipment, mason jars, bottles, and furniture that have little or no connection to Grey County except that they may have been used by a county citizen.

The remaining one-third of the objects were accepted into the collection without recording their origin, use or history.

The artefacts recommended for deaccession have been reviewed by the Collections Manager, Registrar, GR Manager, Interpretation Supervisor, and Facilities Manager.

As per Grey Roots' Acquisition and Deaccession Policy, every effort will be made to ensure that the deaccessioned artefacts remain in the public domain. Deaccessioned artefacts will go through the following process:

- Offered to the Education Collection for hands-on teaching and demonstrations at Grey Roots: 130 artefacts have been accepted into Education collection;
- Artefacts with direct ties to other communities will be offered to corresponding museums on a first-right-of-refusal basis (on-going);
- Offered to other museums - first local, then provincial, then national;
- Any remaining artefacts will be sold at public auction. In doing so, Grey Roots and the County of Grey will relinquish all claims to ownership of these artefacts.

Since Grey Roots acquires objects with a view to permanence in its collections, every deaccession/disposal is approached with caution.

Financial / Staffing / Legal / Information Technology

Considerations

This work is part of the collections staff workload. Disposals will only be made to non-profit institutions that operate in the public trust ensuring a level of care for the artefacts in keeping with the County of Grey's expectations. All transportation costs will be borne by the accepting museums.

Staff estimates that the total fair market value of these artefacts is under \$5000. Should any of these artefacts be sold, all monies realized from their sale will be used exclusively for the purchase of artefacts as per Ministry of Tourism, Culture and Sport standards. Staff recommends that any proceeds be deposited in the existing reserve fund for this purpose. All disposals will be fully documented.

Link to Strategic Goals / Priorities

Achieving excellence in governance and service

Securing our place as Ontario's recreation jewel

**Beyond Collecting Mandate due to Lack of Provenance, Tenuous or No Connection to Grey County,
Poor Condition or Redundancy within the Collection**
