April 23, 2020

Dear Mr. Hicks,

I am aware now that Council has voted in favour of farmers with support of our proposal to move the property tax ratio from .24 to .218.

I understand that this is a decision taken after some debate and that each Council member has their own position about the best way forward.

Notwithstanding the differences, I do want to acknowledge the consideration that you bring to the discussion and make sure you and your colleagues know that the farm community is grateful.

As I have explained at other times; the farming community is deeply rooted both economically and socially in Grey County and remains committed to supporting our local economy and culture. Your collective decision to recognize and support our contribution is appreciated.

If there is anything I can do to assist with your work in support of the Grey County Agricultural sector, I hope you will get in touch so we can do our best together.

Kind regards,

Hugh Simpson

Hugh Simpson
President
