Warden Hicks, Deputy Warden McQueen, Ms Wingrove, Ms Morrison, Ms Warder:

On behalf of our Board of Directors and the school children from Grey County...THANK YOU.

The support provided for our programs from County Council and staff is greatly appreciated and makes a difference in our ability to continue to offer lifesaving & injury prevention safety training programs to school children from Grey County. The warm reception I have received at my presentation to Council in 2020 and again this past March and that of your staff is beyond heartwarming. We as volunteers continue to fundraise in order to provide these safety programs free of charge to the children and your overwhelming support does ***Make a Difference in the Life of a Child!***

I would appreciate if you share our thanks with the rest of Council.

We do invite Council members to visit our children's safety village and can arrange meeting space and a tour of the facilities.

Once again, THANK YOU.

Al Leach  
Vice President
